

RJ45 Connector

iFYRJ45

iFyber open-end connectors are compatible with both solid and stranded cable. They work for mostly all styles and models of RJ45 crimper tools and Cat6 RJ45 keystone coupler, and support 24 to 26 AWG round or flat network cable. Ideal for Multi-Strand wires for making network patch cables, Cable insert and high strength strain relief boot for added durability, long lasting flexible lock pins which allow for more Plug-Unplug cycles.

Specifications
